

# Immediate Action Required

**Products:**

## Specific 3M™ Protecta® Construction & Vest Style Harnesses

**Impacted Dates:**

10/1/21—11/1/22

→ 3M Fall Protection is issuing an **“Inspection Notice”** on the part numbers found in the appendix

### Overview of action

3M Fall Protection has identified a limited number of Protecta Harnesses where the harness webbing is not routed through the adjuster. This condition results in the adjuster not being able to be adjusted or does not lock in place after adjustments have been made. The assembly error is believed to affect only a limited number of units and has been corrected.

There have been no accidents or injuries related to this issue. This manufacturing issue will result in the harness not performing properly in the event of a fall, which could result in severe injury or death. Due to this, we are sending out an inspection notice so this issue can be detected by inspecting the harness as shown below.

### End Users

Please follow the steps listed below:

**Step 1:** Remove product from service until inspection is performed.

**Step 2:** Locate the label on the harness (see photograph to right) to determine the model number and if it was manufactured between **October 1, 2021** and **November 1, 2022**. If the harness is an impacted model and was manufactured in the affected date range, please continue to Step 3.

**Step 3:** Once you have confirmed the part number & affected date, inspect the torso adjusters to ensure the webbing is properly routed through the adjuster, as shown in the images right. If the harness passes the inspection, it is acceptable for use. If the harness does not pass inspection, contact our Customer Service Department to arrange to have the harness replaced, as per our standard warranty.

### Distributors

Upon receipt of this Notice, please contact our Customer Service department for a listing of the affected product sold to you. If you have any of the affected devices in stock, please return them to 3M Fall Protection for credit at 3M's expense. Please immediately forward this Notice to any of your customers who have purchased affected products from you and provide any assistance requested by your customers to complete the process.
