BUILD YOUR CITY. KEEP IT RUNNING.
### A54 SNAPPLUGS® CONCRETE PLUGS
- Easily installed using J58 Epoxy or J40 day-chem ad Bond
- Designed to fit the hole of 1” x 1” plastic cone
- Concrete grey

### A110 METAL RIB
- Stay-in-place formwork for concrete
- The formwork solution for tough forming situations
- Can be bent to form curves
- Easily cut and installed in the field
- No form stripping, clean-up, refacing, or oil required
- 27” x 97”

### A58 SURE PLUG™
- Used to plug holes after taper tie removal
- Used only with the A59 insertion tool
- Plug is grey color to match concrete
- Ribs inside plug are designed to anchor the grout

### COIL THREAD ADJUSTABLE BOLTS
- Used with concrete forms
- Also known as lag thread
- Plain
- Quick assembly/removal

### B2/B3 HEAVY-DUTY 4-STRUT SCREW-ON COIL TIES
- Designed with longer coils that extend beyond the end of the struts
- SWL provides a factor of safety of 2 to 1
- Available with optional B3 Screw-on Coil for use with the B30 Screw-on Plastic Cone
- 3/4” diameter
- 18,000 lb. safe working load

### B30 SCREW-ON PLASTIC CONE
- For backing the cone off of B5 Screw-On Coil Ties
- Use a B15 Cone Removal Wrench to back the cone off of the tie
- Can be reused

### C49 BRIDGE OVERHANG BRACKET
- Designed with maximum adjustability to meet varied overhang forming requirements on structural steel or precast/prestressed concrete beams
- Accommodates an adjustment range of 30” to 70” and can be mounted to steel beams, precast concrete beams and concrete box beams with the appropriate hanger devices
- Can be shipped “knocked down” for ease in handling and shipping

B16 STANDARD COIL LOOP INSERT
- Highly efficient straight coil loop insert for precast concrete elements
- Standard and special sizes available

A16 OMNI WEDGE
- For use with standard or heavy-duty snap ties
- Increased bearing area for proper load distribution against walers and has nail holes on each end
- SWL provides a factor of safety of 2 to 1
- 100 per box

B16W STANDARD COIL LOOP INSERT WITH WASHER
- Highly efficient straight coil loop insert for precast concrete elements
- Standard and special sizes available

A4H SURE-SNAP HEX HEAD TIES
- With hot-forged integral 1/2” hex-shaped heads
- Hex head allows for short-end snap ties to be broken back with formwork still in place
- 2,250 lb. safe working load
- SWL provides a factor of safety of 2 to 1
- 1” x 1” A2 plastic cones for nominal 1” breakback

A81 JAHN® “A” BRACKET
- Can be utilized to hold a single horizontal wale or a single vertical stud with any type of wall form
- Fabricated from high strength steel with a cad plated eccentric and painted body
- When properly installed, bracket will not loosen from internal vibration of the concrete
- Uses 4-3/4” L&W snap ties, requires no nailing
- Easy to install and strip

**B12A EURO THREAD BAR**
- 2-1/2 threads per inch for fast installation and stripping
- Two flat sides allow gripping and turning of bar with wrench
- Field cutting with carborundum blades is easily accomplished without thread damage
- 5/8” x 19’
- Also available in 7/8” x 20’
- 100 per lift

**CONCRETE SOLUTIONS**

**B12 COIL THREADED ROD - HIGH TENSILE**
- Used with concrete forms
- Also known as lag thread
- Plain
- Quick assembly / removal

**COIL THREAD HEX NUTS**
- Used with concrete forms
- Also known as lag thread
- Plain
- Quick assembly/removal

**B12A D/R EURO THREAD BAR ACCESSORIES**
- Accessories for 12A
- Field cutting, with Carborundum blades, is easily accomplished
- Available in 20’ lengths
- 5/8” diameter

**RECTANGULAR & SQUARE WASHERS**
- Used with concrete forms
- Plain
- Wider and thicker and provides larger bearing surface

**COIL THREAD WING NUTS**
- Used with concrete forms
- Also known as lag thread
- Plain
- Quick assembly/removal
- Ductile iron
- 5 per pack

**SQUARE WASHERS**

BUILD YOUR CITY. KEEP IT RUNNING.

**CHC CONTINUOUS HIGH CHAIR**
- Used to support upper slab steel from slab form surface, substitutes for individual chair supports
- Support upper slab steel from slab form surface, substitutes for individual chair supports
- 5' lengths with legs spaced on 7-1/2” centers
- Manufactured to the recommendations or specifications of the Concrete Reinforcing Steel Institute (CRSI)
- Plain finish

**PSBB AZTEC® STRONGBACK SLAB/BEAM BOLSTER™**
- Continuous support for elevated slab, Tilt-wall, precast, post-tension, parking garage decks, side-form spacer
- High load strength and impact-resistant
- Meets all requirements and qualifies as a CRSI Class 1 bar support, qualifies for LEED credits
- Can be used individually or locked together to create any length

**CHC CONTINUOUS HIGH CHAIR**
- Support upper slab steel from slab form surface, substitutes for individual chair supports
- Support upper slab steel from slab form surface, substitutes for individual chair supports
- 5' lengths with legs spaced on 7-1/2” centers
- Manufactured to the recommendations or specifications of the Concrete Reinforcing Steel Institute (CRSI)
- Plain finish

**PSBB AZTEC® STRONGBACK SLAB/BEAM BOLSTER™**
- Continuous support for elevated slab, Tilt-wall, precast, post-tension, parking garage decks, side-form spacer
- High load strength and impact-resistant
- Meets all requirements and qualifies as a CRSI Class 1 bar support, qualifies for LEED credits
- Can be used individually or locked together to create any length

**PTC AZTEC® TOWER CHAIR™**
- Designed for maximum aggregate flow and concrete consolidation
- Single mat: rebar or wire mesh
- Bottom layer double mat: rebar or wire mesh, tilt wall, side-form spacer
- Straddles upper rebar mat in double mat applications

**D48 SURE-GUARD® REBAR PROTECTOR**
- To protect workmen from the hazards of protruding rebar
- Available for all rebar sizes
- 50 per bag
**D9 TAPER TIE**
- Used where specifications require or permit complete removal of the form tie from the concrete
- 100% reusable tie
- Supplied with coil thread
- For wrench turning purposes, taper ties are manufactured with a square end
- Protruding nose to prevent thread damage
- SWL provides a factor of safety of appx. 2 to 1

**D250SCA BAR LOCK® COUPLER**
- Rebar coupler with thick walled tube, specially designed lock shear bolts, serrated grip rails, and center stop pin
- Fits rebar sizes #4 (13mm) through #18 (57mm)
- Designed to achieve type I splice when used with grade 60 rebar
- Quick and easy, no bar end preparation
- Used in tension, compression, and seismic applications
- Compliant/Approved: ACI 318-II Type 1 (ASTM Gr. 60bar), ICC AC-133, Army Corps of Engineers CW 03210, AASHTO, International Build Code (IBC)
**Build Your City. Keep It Running.**

**Masterflow 100 Grout**
- No accelerators, will not contribute to corrosion of reinforcing steel
- Yields a high effective bearing area
- Hardens free of bleeding
- Concrete gray color when cured
- 50 lbs.

**Masterflow 555 Grout**
- Designed for easy placement
- High effective bearing area for proper support and load transfer
- Meets ASTM C1107 at semi-fluid consistency
- 50 lbs.

**Masterflow 928 Grout**
- Meets ASTM C1107 at fluid consistency
- ANSI/NSF certified for use with potable water
- Hardens free of bleeding, segregation and settlement shrinkage
- Has extended working time, can be mixed to a wide range of consistencies
- 55 lbs.

**Masterflow 885 Grout**
- Meets ASTM C1107 at fluid consistency
- Hardens free of bleeding, segregation and settlement shrinkage
- Has extended working time, can be mixed to a wide range of consistencies
- Metallic aggregate for added durability
- 55 lbs.

**V/O Repair Mix**
- Polymer-modified vertical overhead repair material
- Self-curing technology (SCT)
- 25-minute working time, structural strength in 2 hours
- Concrete grey color
- Freeze/thaw resistant
- 50 lb. bag

**Concrete Mix**
- Very rapid hardening concrete
- Sets in 15 minutes, ready for traffic in 1 hour
- Over 6,500 psi ultimate strength
- 60 lb. bag

**Mortar Mix**
- High-strength structural repair mortar
- Sets in 15 minutes, rock solid in 1 hour
- Formulated for long life in critical applications
- 55 lb. bag

**Wunderfixx®**
- Concrete patching and smoothing compound
- Single coat application, paint in 3 hours
- Ideal for patching seams, reveals, bug holes, honeycombing, and imperfections in concrete surfaces
- Superior adhesion, durable, and long lasting
- Ultra-smooth finish
- Self-curing technology
- 25 lb. bag

CONCRETE SOLUTIONS

ALL-ALUMINUM PLACER
- With 60” aluminum handle
- Powder-coated aluminum construction with soft grip end-cap
- Braced for additional strength
- 19-1/2” x 4” blade

TIE WIRE TWISTER
- Safely and easily twists wire bar ties
- Compact size allows tool to be used in tight spaces
- Durable design

MARGIN TROWEL
- Fully ground and polished tempered blade
- Hardwood handle
- 5” x 2”

HIGH-STRENGTH ALUMINUM ALLOY SCREED
- Made from premium high-strength alloy - will not rust or rot
- Damage and warp resistant
- End capped to prevent concrete from getting inside
- Lightweight, long-wearing, and rigid

MAGNESIUM BULL FLOAT
- Finest extruded magnesium available
- Balanced for ease of handling
- Lightweight, long wearing, and properly balanced
- Heavy-duty bracket is adjustable to any angle

56” OPEN ANGLE MONSTER PRY BAR
- Ideal for prying forms and other embedded objects
- All steel construction ensures long life
- Sharper pry bend to give end-user more leverage
- Powder coated finish

CORRUGATED WASHOUT
- A better solution for construction site washout
- Highly portable with easy setup and removal
- 6 mil liner bag
- Good for concrete, paint, stucco, and grout washout
- EPA Compliant

PRODUCT NO. | SIZE CAPACITY WEIGHT
--- | --- | ---
OUT3425030 | 30" x 30" x 14" H | 0.25 CU. YARDS | 6 LBS.
OUT4523404 | 4' x 4' x 14" H | 0.68 CU. YARDS | 9 LBS.
OUT4523406 | 6' x 6' x 12" H | 1.33 CU. YARDS | 16 LBS.

PVC WASHOUT
- A better solution for construction site washout
- 10 ounce PVC construction
- UV- and weather-resistant
- Easy setup
- EPA Compliant
- Includes #3 rebar legs

PRODUCT NO. | SIZE CAPACITY WEIGHT
--- | --- | ---
OUT96500480 | 6' x 8' x 10" H | 2 CUBIC YARDS | 40 LBS.
OUT96500440 | 6' x 10' x 12" H | 3 CUBIC YARDS | 45 LBS.

WEATHERSHIELD DEBRIS NETTING
- For use on open floor construction areas of high rise buildings
- Contains debris using a tight mesh
- Protects the public and adjacent property below work areas
- Hangs vertically or horizontally

PRODUCT NO. | COLOUR SIZE
--- | --- | ---
NMN409482 | GREEN 6' x 165' | NMN409481 | GREEN 10' x 165'
NMN417810 | BLUE 10' x 165'

CURELAP REUSABLE CURING BLANKET
- Reusable: The burlap layer distributes the water evenly while the white opaque poly reflects the intense rays of the sun. Cure lap blankets need no rewetting or resealing.
- Combines poly and burlap
- After use, expose burlap side to the sun or air and the burlap will dry and ready to use again quickly

PRODUCT NO. | SIZE
--- | ---
MWCCURELAP5X100 | 5' x 100' | MWCCURELAP10X100 | 10' x 100'

WOVEN POLY INSULATED CONCRETE CURING BLANKETS
- Help ensure proper concrete curing when temperatures drop below 4.5°C
- Use to prevent ground from freezing before the pour, and protect newly poured surfaces from snow and cold wind after the pour

PRODUCT NO. | SIZE
--- | ---
INDUS1800636 | 6' x 24'
INDUS1800638 | 8' x 24'
INDUS1800640 | 12' x 20'
INDUS1800642 | 12' x 24'

POLY INSULATED CURING BLANKETS
- Consistent concrete curing and retention of maximum insulation for vertical applications
- Double stitched edge seams ensure the insulation foam will not shift
- Custom sizes available

PRODUCT NO. | SIZE

NMN403081 | 6' x 24'
NMN402313 | 12' x 24'

PVC WASHOUT
- 10 ounce PVC construction
- UV- and weather-resistant
- Easy setup
- EPA Compliant
- Includes #3 rebar legs

PRODUCT NO. | SIZE
--- | ---
NMN413081 | 6' x 24'
NMN402913 | 12' x 24'

3.5-GALLON CURING COMPOUND SPRAYER
- 35-45 psi, 1/2 gpm, 48” reinforced hose, 24” brass wand
- TRIPoxy® lined steel tank protects against corrosion, rust, and damage from denting
- Oil- and solvent-resistant hose
- 4” wide mouth opening
- 14” heavy-duty brass pump
- 5 gpm brass nozzle

CPN1961N

3.5-GALLON XTREME® INDUSTRIAL CONCRETE SPRAYER
- 35-45 psi, 1/2 gpm, 48” Xtreme® hose, 24” brass wand
- TRIPoxy® lined steel tank protects against corrosion, rust, and damage from denting
- 4” wide mouth opening
- Compatible with most professional concrete applications and extreme chemicals

CPN19049

3-GALLON DELUXE OPEN-HEAD SPRAYER
- 35-45 psi, 1/2 gpm, 36” hose, 18” brass wand
- Positive-seal 2-stage safety lock
- All-brass 12” pump for positive compression with fewer strokes
- Corrosion-resistant Tri-Poxy® steel tank
- Brass nozzle adjusts from fine to 30’ coarse spray

CPN1813N
### CONCRETE SOLUTIONS

**DMS240 Core Drill**
- Capable of core drilling in wall and floors up to 10” in diameter
- Electronic overload protection guards against overheating and extends protect life
- Drills holes for ventilation and plumbing channels
- Bit not included

**WT15 15L Water Tank**
- Pressurized water tank
- Battery operated

**DM230 Hand Held Core Drill**
- Water cooled 3 speed gear block
- Hand Held Up To 4” Stand Mounted Up To 6”
- Soft start slowly increase motor’s RPM when starting

**K3000 14” Wet Electric Saw**
- Made for cutting indoors and outdoors
- Can be used with optional vacuum attachment
- Cutting depth: 5”

**K760 Gas Saw**
- Up to 14” blade capacity
- 74cc
- Cutting depth: 5”
- 5 hp output

**WT15 15L Water Tank**
- Pressurized water tank
- Battery operated

**K760 Gas Saw**
- Up to 14” blade capacity
- 74cc
- Cutting depth: 5”
- 5 hp output

**GRL 245 HVCK Rotary Laser Complete Kit**
- Self-leveling rotary laser
- Horizontal and vertical self-leveling
- IP54 rated, which means that it’s protected against dust and water
- Includes: Full Kit of Accessories Including Laser Receiver, Bracket, Wall Mount, Tripod and Grade Rod

**GLM 100 C Distance Measure Up To 330FT With Bluetooth**
- Use your smart device as a remote control to take measurements from the laser measure in hard to reach spots in target-less conditions
- Displays 360° angle measurement in 2 axis

**Self-Leveling Cross-Line Laser W/ Plumb Points**
- Highly visible lines and points
- Has a visible range of 65 Ft. with an accuracy of 1/8 In. at 33 Ft.

**GRL 300Hvck Rotary Laser Complete Kit**
- Includes: LR30 Receiver, Full function remote control RC1, Wall Mount, Tripod and 8 Ft Grade Rod, Pair of Laser Glasses, Magnetic Target, Carrying Case, (2) D Battery

**RL25HV Horiz/Vert Rotating Laser Kit**
- Rugged design (with IP56 rating) to handle extreme jobsite conditions
- Kit includes: Detector, tripod, and leveling rod
CONCRETE SOLUTIONS

**SDS-MAX® DEMOLITION HAMMER**
- Light demo hammer with top power-to-weight ratio – 5.6 ft.-lbs. of impact energy at only 12.4 lbs.
- SDS-max® bit system – ease of use with tool-free bit changes with automatic bit locking and maximum impact-energy transfer rate

**BOSCH 18V EC 1” SDS+ ROTARY HAMMER 6.3AH KIT**
- 360° Auxiliary handle
- Integral clutch
- Multi-function selector
- Variable speed 3 finger trigger

**1 IN. SDS-PLUS® BULLDOG™ XTREME ROTARY HAMMER**
- Robust 8.0-amp rotary hammer delivers 2.0 Ft.-Lbs. of impact energy with three modes of operation, rotating chisel lock, accurate bit starting and D-handle convenience
- Vario-Lock positioning rotates and locks chisel to optimize working angle

**BOSCH BULLDOG 36V 1-1/8” SDS+ ROTARY HAMMER KIT**
- Power of corded hammers with cordless convenience
- Vibration Control™ for comfort and control
- KickBack Control to help with bind-up situations

**1-1/8 IN. SDS-MAX® COMBINATION HAMMER**
- 6.1 Ft.-Lbs. of impact energy, up to 20 percent more than other combo rotary hammers
- SDS-max® bit system for tool-free easy bit changes
- Vario-Lock™ mechanism allows 12 positions for best chisel angle

**1-7/8 IN. SDS-MAX® ROTARY HAMMER**
- Provides maximum concrete removal for maximum productivity in both drilling and chiseling applications
- Tuned mass damper anti-vibration system - active vibration control in the hammer mechanism and main handle for improved comfort in all day demolition applications

**1-9/16 IN. SDS-MAX® COMBINATION HAMMER**
- Constant Response™ circuitry provides soft-start and maintains constant speed under load
- Turbo™ Power delivers 20 percent more power in hammer-only mode
- Electro-pneumatic impact system maximizes impact force and minimizes vibration

**1-5/8 IN. SDS-MAX® Combination Hammer**
- Provides maximum concrete removal for maximum productivity in both drilling and chiseling applications
- Tuned mass damper anti-vibration system - active vibration control in the hammer mechanism and main handle for improved comfort in all day demolition applications

**1-7/8 IN. SDS-MAX® ROTARY HAMMER**
- Constant Response™ circuitry provides soft-start and maintains constant speed under load
- Turbo™ Power delivers 20 percent more power in hammer-only mode
- Electro-pneumatic impact system maximizes impact force and minimizes vibration

**BOSCH 18V EC 1” SDS+ ROTARY HAMMER 6.3AH KIT**
- 360° Auxiliary handle
- Integral clutch
- Multi-function selector
- Variable speed 3 finger trigger

**1-1/8 IN. SDS-MAX® COMBINATION HAMMER**
- 6.1 Ft.-Lbs. of impact energy, up to 20 percent more than other combo rotary hammers
- SDS-max® bit system for tool-free easy bit changes
- Vario-Lock™ mechanism allows 12 positions for best chisel angle

**BOSCH BULLDOG 36V 1-1/8” SDS+ ROTARY HAMMER KIT**
- Power of corded hammers with cordless convenience
- Vibration Control™ for comfort and control
- KickBack Control to help with bind-up situations

**1-5/8 IN. SDS-MAX® Combination Hammer**
- Provides maximum concrete removal for maximum productivity in both drilling and chiseling applications
- Tuned mass damper anti-vibration system - active vibration control in the hammer mechanism and main handle for improved comfort in all day demolition applications

**BOSCH 18V EC 1” SDS+ ROTARY HAMMER 6.3AH KIT**
- 360° Auxiliary handle
- Integral clutch
- Multi-function selector
- Variable speed 3 finger trigger

**1-1/8 IN. SDS-MAX® COMBINATION HAMMER**
- 6.1 Ft.-Lbs. of impact energy, up to 20 percent more than other combo rotary hammers
- SDS-max® bit system for tool-free easy bit changes
- Vario-Lock™ mechanism allows 12 positions for best chisel angle

**BOSCH BULLDOG 36V 1-1/8” SDS+ ROTARY HAMMER KIT**
- Power of corded hammers with cordless convenience
- Vibration Control™ for comfort and control
- KickBack Control to help with bind-up situations

**1-5/8 IN. SDS-MAX® Combination Hammer**
- Provides maximum concrete removal for maximum productivity in both drilling and chiseling applications
- Tuned mass damper anti-vibration system - active vibration control in the hammer mechanism and main handle for improved comfort in all day demolition applications
BUILD YOUR CITY. KEEP IT RUNNING.

1-9/16” SDS-MAX COMBINATION HAMMER KIT
- 6.1J’s of impact energy provides the power to drill fast in the hardest of concrete
- Active Vibration Control™ reduces vibration felt by the user at the handles

1-3/4” SDS-MAX COMBINATION HAMMER 13.5AMP
- 8.0 joules of impact energy provides fast drilling and powerful chipping
- 13.5 amp high-performance motor provides high performance & overload protection

1” SDS+ ROTARY HAMMER W/SHOCKS KIT 8AMP
- Delivers 2.8 joules of Impact Energy, providing fast drilling and powerful chipping
- Reversing feature helps release tool from bind up situations and assists with removal of fasteners

1” SDS D-HANDLE ROTARY HAMMER KIT
- Rotating brush ring delivers full speed/torque in forward and reverse
- Integral clutch reduces sudden, high torque reactions if bit jams

1-1/8” SDS+ COMBINATION HAMMER KIT
- Variable speed trigger provides full control of bit speed for a variety of applications
- Forward/Reverse switch allows user to back out the bit in a bind up situation and helps in removal of fasteners

M18 7/8” SDS PLUS ROTARY HAMMER DRILL
- 2.1 joules impact energy provides corded power without the cord
- Retractable utility hook for convenient hanging
- Outstanding power-to-weight ratio, results in superior productivity

M18 FUEL 1” SDS+ ROTARY HAMMER DRILL 5.0AH KIT
- REDLINK PLUS™ Intelligence integrates full-circle communication between tool, battery and charger to protect from overloading, overheating, and over-discharging
- AVS Anti-Vibration System: Minimizes vibration for maximum comfort

M18 FUEL 1-1/8” SDS+ ROTARY HAMMER DRILL KIT
- 6.1J’s of impact energy provides corded power without the cord
- E-Clutch for maximum control in bind-up situations - A Perform and Protect feature

M18 FUEL 1-9/16” SDS MAX HAMMER DRILL 9.0AH
- Brushless Motor provides more power, more run-time, and longer life
- REDLITHIUM™ Battery Pack is the most durable pack on the market delivering more run-time, power and longer battery life

M18 FUEL 1” SDS+ ROTARY HAMMER DRILL 8AMP KIT
- Delivers 2.8 joules of Impact Energy, providing fast drilling and powerful chipping
- Reversing feature helps release tool from bind up situations and assists with removal of fasteners

M18 FUEL 2” SDS-MAX COMBINATION HAMMER E-CLUTCH KIT
- Electronic variable speed allows the user to control the speed of drilling and chipping
- Rear handle mount means less bending over

**Comments:**
TERMS AND CONDITIONS OF SALE

All references in this document to “Seller” shall include HD Supply Canada ("HDS") and/or any subsidiary or affiliate HDS (including any division of the foregoing) performing any or all of the scope hereunder, whether or not specifically identified herein. All sales made by Seller are subject to the Terms and Conditions of Sale, which shall prevail over any inconsistent terms of any purchase order or other document. No terms and conditions in any way altering or modifying these provisions or any other terms of Seller shall be binding upon Seller unless they are specifically authorized in writing by Seller’s authorized representative. There are no terms, conditions, understandings, or agreements other than those stated herein, and all prior proposals and negotiations are merged herein. Purchaser shall also be bound by all payment terms listed on any invoice.

Prices in quotations made by Seller are subject to change without notice, and all quotations expire and become invalid if not accepted within 30 days from the date of issue, unless otherwise noted by Seller in writing. Price extensions when made are for Purchaser’s convenience only, and they, as well as any mathematical, stenographic or clerical errors, are not binding on Seller. Prices shown do not include any sales, excise, or other governmental tax or charge payable by Seller to Federal, Provincial or local authority. Any taxes now or hereafter imposed upon sales of shipments will be added to the purchase price. Purchaser agrees to reimburse Seller for any such tax or to provide Seller with an acceptable tax exemption certificate.

Seller shall not be liable for delay or default in delivery and all quotations and agreements are contingent upon any cause beyond Seller’s reasonable control, including, but not limited to, governmental action, strikes, or other labor troubles, fire, force majeure, damage or destruction of goods, manufacturers’ shortages, inability to obtain materials, fuels, or supplies, acts of God, or any other cause whatsoever beyond Seller’s control.

Goods not manufactured by Seller are warranted and guaranteed only to the extent and in the manner warranted and guaranteed to Purchaser by the original manufacturer of such goods. ALL OTHER WARRANTIES ARE EXCLUDED, WHETHER EXPRESSED OR IMPLIED, BY OPERATION OF LAW OR OTHERWISE, INCLUDING ALL IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. SELLER’S LIABILITY HEREUNDER, AND PURCHASER’S EXCLUSIVE REMEDIES HEREUNDER, EITHER IN CONTRACT OR IN TORT OR PURSUANT TO STATUTE, FOR BREACH OF WARRANTY OR FOR NEGLIGENCE, ARE EXPRESSLY LIMITED TO THE GIVING OF CREDIT OR REPLACEMENT. SELLER MUST BE GIVEN WRITTEN NOTICE BY REGISTERED MAIL IDENTIFYING THE DEFECTIVE GOODS AND SPECIFYING THE DEFECT WITHIN TEN (10) DAYS AFTER RECEIPT OF THE GOODS BY PURCHASER. SELLER MUST ALSO BE GIVEN THE OPPORTUNITY TO INSPECT THE ALLEGEDLY DEFECTIVE GOODS, AND IF REQUESTED BY PURCHASER, THE ALLEGEDLY DEFECTIVE GOODS MUST BE RETURNED TO SELLER AT THE PURCHASER’S OWN EXPENSE. FAILURE TO GIVE REQUIRED NOTICE WITHIN THE TIME PROVIDED, OR FAILURE TO RETURN ALLEGEDLY DEFECTIVE GOODS TO SELLER FOLLOWING SELLER’S REQUEST CONSTITUTES A WAIVER OF ALL CLAIMS AGAINST SELLER. SELLER’S RESPONSIBILITY TO GIVE CREDIT OR REPLACEMENT IS LIMITED TO THE EXTENT THAT SELLER IS ABLE TO OBTAIN EQUIVALENT CREDIT OR REPLACEMENT FROM THE ORIGINAL MANUFACTURER OF SUCH GOODS. PURCHASER AND SELLER AGREE THAT SELLER SHALL NOT BE LIABLE DIRECTLY OR INDIRECTLY FOR ANY CONSEQUENTIAL, INCIDENTAL, SPECIAL OR INDIRECT DAMAGES IN ANY WAY ARISING FROM THE SALE, HANDLING, INSTALLATION, OR USE OF THE GOODS SOLD OR FROM ANY OTHER BREACH OF THIS DOCUMENT, ANY PURCHASE ORDER OR ANY OTHER AGREEMENT BETWEEN PURCHASER AND SELLER.

No credit for goods returned by Purchaser shall be given without Seller’s written authorization. All goods returned with seller’s authorization are subject to a restocking charge. No claim for shortage of goods or damage to goods shall be allowed unless Purchaser, within ten (10) days after receipt of shipment, gives Seller written notice by registered mail of the claim for shortage or damage and in such written notice fully describes the shortage and/or damage alleged. All sales are FOB’s Seller’s loading dock. Seller shall not be liable to Purchaser for goods which are damaged or lost while in the possession of a common carrier, and it will be Purchaser’s responsibility to recover any and all damage directly from the common carrier. Any change in quantities or destination may result in a price adjustment by Seller.

Seller assumes no responsibility whatsoever for Seller’s interpretation of plans or specifications provided by Purchaser and Purchaser’s acceptance must be premised on final approval by architects, engineers, or other third parties, and not on Seller’s interpretation.

Unless otherwise stated on the invoice or other writing from Seller, payment terms are net 30 days. Payment is due in the form of cash, cash equivalent, cheque, or money order. Seller may apply Purchaser’s payment against any open charges within Seller’s sole discretion. The purchaser agrees to pay the total outstanding within 30 days of the date of the invoice. Interest will be payable by the Purchaser at a rate of 1 ½% per month (18% per annum) on any amounts outstanding for more than 30 days. The finance charge stated herein shall continue to accrue after Seller obtains a judgment against Purchaser. The Seller has the right to exercise setoff or recoupment when needed to satisfy an outstanding debt including acceptance of liability incurred for third party collection costs and/or legal costs incurred in the event of default of payment.

Seller has implemented a policy facilitating the use of electronic payment (ACH debits) technology for the movement of funds. In accordance with this policy, checks received by Seller as payment for goods and/or services provided might be used for the purpose of capturing the bank routing and account information for the depository financial institution named thereon. Seller reserves the right to initiate an ACH debit entry to the payer’s checking account.

Purchaser agrees to pay Seller all costs and expenses of collection, suit, or other legal action, including all actual lawyers’ and paralegal fees, incurred through trial, on appeal, or in any administrative proceedings brought as a result of the commercial relationship between them as permitted by the law of the province. Any cause of action which Seller may have against Purchaser may be assigned by Seller without the express written consent of the Purchaser.

Purchaser waives any and all privileges and rights, which Purchaser may have relating to venue. Purchaser and Seller agree that any legal action brought by either as a result of the account or business relationship between Purchaser and Seller shall be brought in the venue of the Province where the sales from Seller to Purchaser occurred.

Seller reserves the right to terminate or restrict any order upon notice to Purchaser. Seller’s extension of credit shall at all times be within the sole discretion of Seller. Seller retains the right to curtail, modify or eliminate any credit availability or credit limit within its sole discretion. Purchaser certifies that it is solvent and that it will immediately advise Seller if it becomes insolvent. Purchaser agrees to provide a certificate of solvency on request. Purchaser agrees to send Seller written notice of any changes in the form of ownership of Purchaser’s business within five days of such changes.

PURCHASER AND SELLER AGREE AND INTEND THAT THERE ARE NO THIRD PARTY BENEFICIARIES TO THIS DOCUMENT AND THAT PURCHASER AND SELLER ARE THE SOLE INTENDED BENEFICIARIES OF THIS DOCUMENT.

All individual Applicants and Guarantors must be of the age of majority in their province of residence and be a permanent resident of Canada.
